SITE: Covitch Property
BREAK: 1.3
OTHER: 556418

I have reviewed the draft SIP package, and have no comments. You have simplified a very complex site history into a clear, well-written presentation of the facts. I appreciate your efforts. If you haven't received any comments from the state or site owner, then go ahead and finalize the package as is. Since I have no comments on the SI Worksheets, there is no need to resubmit them with the final report.
